Product Description

EROMART Advanced Mix Cash Counting Machine – Efficient Cash Management for Businesses

Looking for an advanced mix cash counting machine for your business? The EROMART Advanced Mix Cash Counting Machine is designed to support convenient cash handling and improve the efficiency of daily cash-counting operations. It is suitable for retail shops, supermarkets, jewellery stores, textile businesses, offices, and other establishments that handle cash regularly.

Featuring a convenient control panel, display system, and top-loading note feeder, this cash counting machine helps simplify routine cash management. Businesses looking for a mixed denomination cash counter can contact EROMART to confirm the exact model features, supported currencies, counting speed, and denomination recognition capabilities.

EROMART provides cash counting and billing machine solutions for businesses seeking practical equipment and dependable customer support. Contact the team to enquire about the Advanced Mix Cash Counting Machine, pricing, warranty, and delivery options.

EROMART, which provides an advanced mix note value counter, is a robust and Japanese color sensor feature-packed solution for precise and secure currency management, designed specifically for Indian currency. This advanced machine combines UV, MG, MT, IR, 3D, and color detection technologies to identify counterfeit notes and ensure accurate counting. It can handle mixed denominations, providing the total value along with individual denomination breakdowns. The machine offers automatic detection of half, chained, and double notes, enhancing operational efficiency. With a batch, add, and self-examination function, it simplifies cash handling for banks, retail stores, and businesses with high cash transaction volumes. The RS-232 port allows easy software updates, keeping the device future-ready.

Features:

-> Calculates the total value and sorts denominations for Indian Rupees.
-> Detects counterfeit notes with UV, MG, MT, IR, 3D, and color sensors.
-> Identifies half-notes, chained notes, and double notes automatically.
-> Counts at a speed of 1000 notes per minute with a hopper and stacker capacity of 200 bills.
-> Includes automatic start, stop, and clear features.
-> Batch and Add Modes: Facilitates cash bundling and cumulative counting.
-> Software Upgradability: Ensures compatibility with future currency changes through the RS-232 port.
