CASH COUNTING MACHINE

Battery Backup Mix Note Counting Machine

✓ In Stock

Product Description

EROMART Battery Backup Mix Note Counting Machine is a practical solution for businesses looking to improve cash-counting speed, convenience, and daily operational efficiency. Manually counting different currency denominations can take valuable time and increase the possibility of human counting errors. This machine helps simplify the process with automated note counting and a convenient operating panel.

Designed for demanding business environments, this mix note counting machine is suitable for retail shops, supermarkets, jewelry stores, textile shops, petrol stations, cash collection counters, offices, and other businesses that regularly handle cash.

Its battery backup capability provides added convenience during power interruptions, depending on the battery configuration and operating conditions. The machine's compact counter-style design makes it suitable for business counters

where efficient use of space is important.

Whether you need a battery backup cash counting machine for everyday transactions or a mix denomination note counter for regular cash reconciliation, EROMART offers a convenient option for improving your cash-handling workflow.

EROMART provides India's 1st BATTERY-OPERATED MIX NOTE CASH COUNTING MACHINE WITH AN AUTOMATIC FAKE NOTE DETECTOR & COLOR SENSOR DETECTION + 3D SENSORS. Automatic START, STOP, and CLEARANCE Detecting fake banknotes by UV, MG, IR, and MT color sensor detections + 3D detections. Alarm when detecting a fake and suspected banknote and an error code showing on the display with batching, adding, and self-checking functions.

Automatic half-note, chained-note, double-note detection Sheets counting function and value counting function (mixed counting) Denomination sort function based on first banknote Suitable for counting and detecting most currencies in the world.
