CASH COUNTING MACHINE

Mix Cash Counting Machine With Printer

✓ In Stock

Product Description

The EROMART Mix Cash Counting Machine With Printer is a practical cash management solution for shops, supermarkets, retail stores, jewelry shops, petrol stations, money-handling counters, offices, and other businesses that process cash every day.

Manual cash counting can consume valuable time and increase the possibility of counting mistakes, especially when handling mixed denominations. This machine is designed to streamline the cash counting process and make daily cash management more convenient.

With its mixed-note counting capability and printer-equipped setup, it can help businesses process banknotes and obtain printed counting results, depending on the supported functions and configuration. Its control panel, display, and dedicated note-feeding and collection sections make it suitable for routine cash-handling operations.

Choose EROMART for a convenient way to improve cash-handling efficiency and simplify daily cash reconciliation.

EROMART provides India's 1st Mix Note Cash Counting Machine with PRINTER ATTACHED options, automatic fake note detector & color sensor detection, and 3D sensors. Automatic START, STOP, and CLEARANCE Detecting fake banknotes by UV, MG, IR, and MT color sensor detections + 3D detections. Alarm when detecting a fake and suspected banknote and an error code showing on the display with batching, adding, and self-checking functions.

Automatic half-note, chained-note, double-note detection Sheets counting function and value counting function (mixed counting) Denomination sort function based on first banknote Suitable for counting and detecting most currencies in the world.
