20 mm Fully Automatic Note Banding Machine, also known as the Note Binder, is an advanced and efficient solution designed for automated bundling of currency notes or similar items. Crafted with innovation and functionality in mind, this machine offers a seamless and reliable process for securely binding stacks of notes.

With a capacity to bundle up to 20 mm of notes, the Note Binder streamlines the task of organizing and bundling currency notes in financial institutions, banks, retail establishments, and cash-intensive businesses. Its automatic operation reduces manual labor and enhances productivity.

The machine's advanced technology ensures precision and consistency in the bundling process. It operates fully automatically, efficiently handling stacks of notes and securing them with a banding strap. This feature eliminates the need for manual intervention, saving time and reducing the risk of errors.

The Note Binder is designed with user convenience in mind, featuring user-friendly controls and an intuitive interface. Its automated functionality and straightforward operation make it suitable for various work environments, from busy bank branches to retail cash counters.
