BILLING MACHINE

Touch Pos Billing System

✓ In Stock

Product Description

Upgrade your business with the EROMART Touch POS Billing System, designed to simplify billing and improve daily business management. Whether you operate a restaurant, hotel, supermarket, bakery, grocery store, or retail shop, this touchscreen billing machine helps you handle transactions smoothly.

The easy-to-use touchscreen display allows cashiers to select products, enter quantities, check prices, and generate bills with just a few touches. Its visual product selection interface makes billing convenient, while the connected thermal receipt printer helps print customer bills quickly.

Instead of managing sales manually, businesses can use a POS billing system to organize their billing operations and improve checkout efficiency. The system can be configured with suitable billing software and business-specific features to meet different shop and restaurant requirements.

Choose the EROMART Touch POS Billing System for a smarter billing experience, convenient operation, and professional business management.

Features & Advantages

-> Large Touchscreen Display: Conveniently operate billing software through the touchscreen interface.

-> Fast Billing Process: Create customer bills with simple touch operations.

-> Easy Product Selection: Select products directly from the visual product menu.

-> Quantity Management: Enter and update product quantities during billing.

-> Accurate Bill Calculation: View product prices, amounts, and bill totals.

-> Thermal Receipt Printing: Print customer receipts using the connected thermal printer.

-> User-Friendly Interface: Easy to understand and convenient for everyday cashiers.

-> Professional Billing: Improve your shop's checkout experience.

-> Business Management: Configure suitable software for sales and inventory operations.

-> Space-Saving Design: Integrated touchscreen terminal and compact printer setup.
